## EDUCATION

### University of Miami

Coral Gables, FL, US

*Master of Science in Music Engineering*, GPA: 3.94

May 2026

- **Relevant Coursework:** Acoustics, Designing with AI, Human-Computer Interaction, Psychoacoustics

### Syracuse University

Syracuse, NY, US

*Bachelor of Science in Bandier Music Business*, GPA: 3.36

May 2022

## EXPERIENCE

### Concerts with Humans & Artificial Intelligence (CHAI)

Coral Gables, FL, US

*AI & Music Technology Integration Consultant*

June 2025 - May 2026

- Consult with faculty and prescribe relevant AI music tools to their courses, demystifying AI, providing instructional design, and proposing assignments that best help students adopt advanced technology
- Negotiate educational licenses to secure institutional access to current AI music tools and conduct personalized live demos of AI tools as a guest lecturer, increasing adoption amongst students
- Collect survey data on students' self-confidence and attitude toward AI to measure progress, develop or pivot adoption strategies, and generate insights on the effect of AI on students

### Frost School of Music

Coral Gables, FL, US

*Teaching Assistant & Mixing Engineer*

August 2024 - May 2026

- Design and evaluate coursework, assessments, and research projects for up to 3 classes per semester, easing administrative pressure on faculty and opening opportunities for creative problem-solving
- Mentor students in research design, experiment building, and academic writing at the master's level, helping first-year graduate students find topics of interest and feasibility for their theses
- Guide 10-20 Laptop Ensemble students per semester in contemporary electronic music production, improving individual knowledge of industry standards, clarity of vision, and execution of artistic brand

### Newhouse Audio Studios

Syracuse, NY, US

*Recording Engineer & Music Supervisor*

August 2019 - May 2022

- Recorded, edited, mixed, and mastered sound for over 120 pieces of music, films, and live events, earning the *Stan Alten Excellence in Audio Award* for outstanding achievement in music production
- Designed recording setups to optimize room acoustics and researched, installed, and maintained studio hardware and software, ensuring an accessible and state-of-the-art production environment
- Curated music synchronization for films, fashion shows, and architecture presentations, receiving the *Fashion & Beauty Communications Milestone* for developing cross-disciplinary creative collaboration

## LANGUAGES & SKILLS

**Languages:** *Fluent:* English, Music (Vocals, Bass, and Drums); *Conversational:* Bengali and Spanish

**Technical Skills:** *Audio Technology:* Pro Tools, Ableton Live, JUCE; *Programming:* Python, R, Matlab, C++

## AWARDS & CERTIFICATIONS
